SUMMARY

MERN Stack Developer with hands-on experience designing, building, and deploying scalable web applications. Skilled in React, Node.js, Express.js, and MongoDB, with a strong foundation in responsive design and modern testing practices. Proven ability to deliver production-ready solutions including an AI-powered resume builder, portfolio websites, and full-stack business applications. Certified through CS50x, CS50 Web, and Full Stack Open.

EXPERIENCE

Founder & Lead Developer – MRA Web Developers

June 2025 – Aug 2025 | Remote

- Founded a development brand delivering portfolio sites, business websites, and full-stack apps.
- Designed and deployed the official company website with responsive, scalable UI.

Full Stack Web Developer – Freelance

Dec 2024 – June 2025 | Pakistan

- Developed multiple full-stack applications with clean, responsive interfaces.
- Built an AI-powered Resume Builder with PDF export and deployed on Vercel.
- Implemented projects using Django, Flask, Express.js, JavaScript, Bootstrap, and GitHub for deployment.

PROJECTS

- MRA Web Developers – Business website with modern UI, React, Tailwind, React Router, deployed on Vercel.
- Resume Builder – Full-stack AI-powered app with resume suggestions, built using Django & Bootstrap.
- Portfolio Website – Interactive portfolio with analytics and Email.js integration.
- Other Projects – Threads-like social network, Gmail-inspired mail app, and additional full-stack apps.
